## EXPERIENCE

### Web Developer Intern | D Huda Tech UK Limited

April 2026–July 2026

- Converted Figma designs into responsive, reusable HTML5 and CSS3 components, maintaining consistent layouts across desktop, tablet, and mobile devices.
- Developed data-driven HTML/CSS templates that transformed structured agreement data into standardized, reusable document layouts.
- Tested and debugged frontend features, resolved UI defects, and improved application stability and usability.
- Supported AI chatbot and workflow automation projects through prompt engineering, JSON dataset preparation, data preprocessing, data labeling, and basic model fine-tuning.
- Collaborated with cross-functional team members to translate project requirements into functional web features.

## PROJECTS

### Job Hunt – Job Application Tracker | *Next.js, TypeScript, MongoDB, Mongoose, Better Auth*

[\[Live\]](#) | [GitHub](#)

- Built a full-stack job application tracker with Next.js, TypeScript, MongoDB, and Mongoose, enabling users to organize job details, positions, salaries, links, tags, descriptions, and notes in one platform.
- Implemented authenticated user workflows with Better Auth and server-side authorization checks, supporting secure create, read, update, and delete operations for user-specific job applications.
- Developed a Kanban-style application board with customizable status columns and added Zod validation for authentication forms, alongside responsive Tailwind CSS UI components.

### UniShare – University Resource Sharing Platform | *Next.js, NestJS, TypeScript, Node.js, PostgreSQL*

[GitHub](#)

- Developed a full-stack academic resource-sharing platform with JWT authentication, role-based access control, and RESTful CRUD APIs using Next.js, NestJS, and PostgreSQL.
- Integrated frontend and backend services with Axios and implemented type-safe validation using Zod, DTOs, class-validator, and class-transformer.

### User Authentication & Authorization Backend | *NestJS, TypeScript, JWT, TypeORM, PostgreSQL*

[GitHub](#)

- Built registration and login APIs with JWT access and refresh tokens, HTTP-only cookies, role-protected routes, bcrypt password hashing, TypeORM persistence, and DTO validation.

### Portfolio Website | *Next.js, React, Tailwind CSS, Framer Motion*,

[\[Live\]](#) | [GitHub](#)

- Built a responsive portfolio website with reusable React components and Tailwind CSS to showcase technical skills, projects, and professional experience.
- Implemented scroll-based animations and smooth page transitions with Framer Motion, optimized the layout for different screen sizes, and deployed the application on Vercel.
